### Application download

Search “iWOWNfit Pro” on App Store, Google Play, or scan the QR code below to download the App and install it.

Registration: Open the “iWOWNfit Pro” App. Log in if you have an account, or register a new account.

After a successful connection, time and motion data will synchronize, Sleep monitoring, Message push, Call remind will turn on.

### Charging

Please charge the bracelet for 45mins before using . Pull out the host as shown below, insert the host to a 5V/1A USB port for charging. The white indicating light stops flashing when it is full charged for 45 minutes.

### **Activity/Sleep track**

Equipped with a variety of sensors within the bracelet, worn on the wrist can easily record the movement and the sleep status and data.

Pairing the bracelet and " iWOWNfit Pro " App, you can view the previous day's sleep data in the App.

### **FAQ**

Q: When connected with App, the data SYNC is finished but the time on the device displays incorrectly.

A: Restart the smart band and try data SYNC again.

Q: Why my smart band has no Call ID Display?

A: **Android:** After connecting smart band with App, please allow "iWOWNfit Pro" to visit calls, SMS, contacts and keep "iWOWNfit Pro" running in background. If there are security softwares on your phone, set "iWOWNfit Pro" as "trust" in the softwares.

**iOS:** If no Call ID Display, please restart your phone and reconnect the smart band. When it is connected, please wait until the phone pops up "Bluetooth pairing request" and click "pair" , then the Call ID Display function comes.

Q: The smart band icon shows the Bluetooth was connected, but the App cannot Synchronize data?

A: It is caused by the Bluetooth of the phone in general. Please switch off the App first, restart the Bluetooth and repair. If the above step does not work, please restart your phone and try again.

Q: Why my smartband is disconnected with my phone frequently?

A: Please check if your phone or other security software sets "iWOWNfit Pro" as trusted App or not. If not, please set it as trusted and try again.

More questions, please refer to the instructions for use in the "iWOWNfit Pro " App.
